THE Democratic party would do very well to nominate Secretary OLNEY for President; but it never does very well

IF Dr. HUFF is defeated in the Senate it ought to be charged up against The Louisville Times. That picture of the genial Doctor was enough to stop one of the C. and O. "Flyers," to say nothing of heading off a fat office.

THE American people are in favor of a Protective Tariff, but they do not want it associated with the kind of currency that would neutralize all of its advantages, and introduce confusion and distress in every line of business and every form of industry.

AND now the telegrams tell us that the appointment of Dr. J. P. HUFF to the Superintendency of the Feeble Minded Institute is to be opposed in the Senate. If the Doctor could only corral tofeel that they are not imposing on usby using the present Legislature and put them in his Institute, he would have a job that would keep the mosquitoes off him during the coming season.

THOMAS H. CARTER is a United States Senator from Montana. He is also Chairman of the Republican National Committee. He is also one of those free silveroons. Mr. CARTER should be compelled to "step down and out" of the National Chairmanship. The Republican party must cut loose from the silver lunatics -the sooner, the better.

THE Republicans of the Kentucky Legislature are on trial. They can elect a Republican Senator and it will be a disappointment to every Republican in the country if they don't do it. Times-

The Republicans could have elected a Senator almost any day during the past six weeks; and it has been a great disappointment to every Republican in the country that they haven't already done
